Sirius Solutions to Present at Inaugural Houston IIA Conference

HOUSTON, TX. – April 12, 2010 – Sirius Solutions will present today at the Houston IIA First Annual Conference in Houston, Texas. This event is sponsored by the Houston Chapter of the Institute of Internal Auditors. Sirius’ Glenn Hartfiel, Sid Shaffer and Bob Tesh will conduct a panel discussion on “Cybersecurity: What Every IT Auditor Should Know.” The purpose of this session is to increase understanding of the importance of security and the value of creating a sustainable program for IT risk management and compliance. Specific areas of discussion include analysis of actual security incidents and tips for a successful IT security assessment.

About the Houston IIA Conference

The Houston IIA Chapter continues its tradition of providing innovative, quality education to its members with the inaugural presentation of our First Annual Conference. Our conference theme is “**New Decade...New Conference...New Possibilities.**” The agenda includes a keynote by Rod Winters of Microsoft (IIA Chairman of the Board), and 18 breakout sessions in five different tracks. For more information, visit the [Houston IIA Conference web page](#).
